

# WILLIAMS JUST ESCAPED CHARGES

## Committee Had Intended to Prefer Them, Thompson Announces.

### WOOD COMPLAINT TO BE FILED TO-DAY

Commissioner's Resignation Was a Service to the State, Senator Asserts.

By his resignation last Monday Public Service Commissioner G. V. S. Williams avoided having charges filed against him by the Thompson legislative committee, which is investigating the commission. This announcement was made yesterday afternoon when the committee convened by Senator George F. Thompson, chairman.

Senator Thompson acknowledged the ability of Mr. Williams and criticized him chiefly for apparent disregard of public sentiment and interest, as shown in his stand for 96-cent gas in the case of the Kings County Lighting Company.

Charles against Commissioner Robert C. Wood will be filed to-day, the Senator announced. Following this the committee will investigate the engineering, legal and secretary's offices of the Public Service Commission. It is probable that Oliver C. Semple and Travis H. Whitney, both candidates for a commissionership, will be concerned in this branch of the inquiry.

"This is in no way a personal matter," Senator Thompson said in issuing a statement. "It is simply a note made in the record of the case, and the committee's opinion of the results obtained to date, expressed by the chairman."

Senator Thompson's Statement.

The statement follows:

"While I think at my duty to state that no investigations have developed anything detrimental to the personal character of Mr. Williams, yet I believe his attitude as a Public Service Commissioner and his view as to the manner of administration of the Public Service law was wrong and that his resignation has been a service to the state. I personally believe that his services would not be of great value as an advisor in behalf of any public utility corporation.

"The handling of the rate case of the Kings County Lighting Company, which was allowed to remain pending before the commission, and the courts for more than five years, was not adequate," he said, "and the rate commission tried on behalf of the consumers by the attorneys for the Public Service Commission, and although the company itself offered to reduce its rates so that they would not have been 80 cents, the same as other companies charge in the City of Brooklyn, Commissioner Williams had written his opinion and distributed the same among the rate commissioners, and the company now charges to wit, 95 cents."

Had Intended to Make Charges.

"It was the intention of our committee to prefer charges against Commissioner Williams, based on his action in the Kings County Lighting case, and in contemplation, for the very purpose of assuring a more satisfactory administration of the law in New York upon original principles, but in view of the resignation of our commissioner, we will not feel called upon now to make any charges nor to investigate further with particular reference to Commissioner Williams, but will probably call the attention of the new commissioner to matters which have come to our knowledge in this connection and those found in our former charges."

### EMBARGO LIFTED BY PENNSYLVANIA

Grain and Freight for Domestic Use Come to New York.

(By Telegraph to The Tribune.)

Philadelphia, Dec. 28.—Its recent embargoes having been successful in choking off the great flood of east-bound freight, pending removal of domestic and export freight at seaboard points, the Pennsylvania Railroad to-day decided to lift the embargo on freight to New York for domestic use and grain to Philadelphia for export.

# JEALOUS WIFE DROWNS BOYS

## Husband's Delay at Work Stirrs Her Suspicion—Suicide Effort Fails.

Bridgeport, Conn., Dec. 28.—When her husband was working overtime at his garage last night, Mrs. Edward Kraus, of Golden Hill Street, Milford, immediately jumped to the conclusion that he was off with another woman. After accusing him of unfaithfulness, she took her two little boys to the reservoir to-day, threw them in and leaped after them.

The children, Stanley, seven, and Edward, five, sank instantly. Mrs. Kraus clung to the edge of the ice and was dragged out and taken to the New Haven County Jail.

### CITY GIVES PENSIONS TO SIX

Justice Fleming Among Those to Retire After Thirty Years Service.

The Board of Estimate yesterday retired on an annuity the following men who have been in the service of the city for thirty years or more: Justice John Fleming, of Special Sessions, pension, \$3,150; William E. Rabell, axman in the Department of Water Supply, \$450; Patrick Doyle, Department of Parks, Manhattan and Richmond, \$337; Clarence G. Retton, Department of Parks, Manhattan and Richmond, \$300; Clarence B. Morton, City Clerk's office, \$1,050, and Frederick Dittman, Department of Parks, \$450.

# NURSE'S ARREST SPOILS A PARTY

## Bellevue Employee Accused of Selling Drugs to Patients in Prison Ward.

"I tell you it'll be the greatest little New Year's Eve party I've ever been at. All you have to do is sit around and be good. And the first thing you know some one'll slip you a sniff or they'll give you a helpin' of the needle, and then—oh, boy!"

Tim Shea, until yesterday night nurse in Bellevue Hospital's prison ward, rolled his eyes as he urged his companion, a tall, good looking but roughly dressed youth, to accept an invitation to the party. They were sitting on Monday in the back room of what is known as "Ward 50," a saloon near Bellevue.

But the tall youth hung back. "Tell us some more about it," he said. "Well, we had one Christmas Eve and it was a beauty," the other eagerly whispered. "We had it up in my flat, on East Fifty-eighth Street, No. 238. The gang was all there, and believe me, when the old chimes began the merry Christmas song we owned all the earth."

"We were there with the old coke (cocaine) and the heroin. And if any of the bunch didn't like the stuff we had to sit with them with the old hippo needle."

That convinced the tall youth. The invitation was accepted and the tall youth received a mystic word he was to whisper when he arrived at the Shea home on New Year's Eve. They parted to meet again yesterday. But Tim was surprised when the tall youth appeared at an unseemly hour for a night worker to arise.

"You know Tim, I just couldn't wait until New Year's Eve for that party. I had come up to-day. And I got a friend with me."

When Tim objected, the tall youth and his friend began a search of Tim's flat and, it is alleged, found six bottles of morphine tablets, two hypodermic needles and six packages of cocaine and heroin.

# DOG ACTOR THAT GOT MEDAL

## DOG ACTOR THAT GOT MEDAL.

Jasper, of "Young America" company, honored at theatre club entertainment at Hotel Astor.

### DOG ACTOR GETS A MEDAL

Audience and Yawns.

Fred Niblo began the proceedings by addressing Jasper as "Brother artist" at the Theatre Club meeting yesterday, and it took several minutes to quiet the dog. Seated on a dais in one of the rooms of the Hotel Astor, Jasper, dog star of "Young America," didn't seem to care a rap about the fact that he was being acclaimed as the first canine ever to receive a gold medal for work in the interests of the drama.

Once during the presentation speech he turned his back on the audience and had to be spoken to sharply by Dixie Taylor, his master. And a little later he yawned.

Miss Deverick of the Theatre Club made quite a to-do about Jasper yesterday, but the dog was sadly bored.

"I wish," said the trail-niblo, in presenting the medal, "that I could make Jasper realize the honor that is being done him. I think that the proper person to give him this medal would have been Dixie Taylor. But perhaps Mr. Taylor feared the effect of the surprise on Jasper if he suddenly gave him something after all these years. At all events it is apparent by Jasper's attitude that he would gladly trade this medal off for a dog biscuit and consider that he had profited by the transaction."

Miss Katharine La Salle, also of "Hit-the-Trail Holiday," accepted the medal on Jasper's behalf.

# SHIPYARDS EQUAL TO BIGGER DEMAND

## Plants Can Be Enlarged if American Marine Grows, Inquiry Reveals.

If Congress sees fit to pass laws favorable to the growth of American shipping most of the shipbuilding concerns of the country would be able to enlarge their plants to meet the demand for 50 per cent if the demand for increased tonnage justified it. This has been established by the New York Chamber of Commerce, which, at the suggestion of President Low, has questioned thirty shipbuilders in reference to a proposed enlargement of the mercantile marine.

The highest number of large steel ships constructed in the United States in any one year during the last fifteen years was completed in 1909 when 112 ships were turned out. For the first six months of 1915 only twenty-three ships were built. Since then fifty-two have been contracted for.

In former years the coast yards expanded their output, but the Great Lakes plants took the load, but have fallen behind again in the last few years.

High freight rates induced by the European war have stimulated shipping and the need for larger ships is being felt. In 1908 the Great Lakes plants took the load, but have fallen behind again in the last few years.

# NEW HAVEN MEN MUST FACE JURY

## Judge Hunt Refuses Plea to Dismiss the Indictment.

### LEDYARD UPSETS PLAN OF DEFENCE

Insists Upon Testifying to Deny Responsibility for Metropolitan Steamship Deal.

Adverse rulings of Judge Hunt, in the Federal court, yesterday crushed the hopes of William Rockefeller and his ten associates of the New Haven Railroad and compelled them to begin their defence on charges of violating the Sherman anti-trust act.

The former New Haven directors had asked that the case be taken out of the hands of the jury and the indictment dismissed. Remarks from the bench had given rise to the hope that at least several of the defendants would be rescued from jury verdicts by Judge Hunt. Yesterday's decision, therefore, was a surprise.

The original intention of the defendants to permit the case to go to a decision without offering testimony was suddenly changed yesterday. It was said that a difference of opinion among them caused the change after Lewis Cass Ledyard insisted upon going on the witness stand in his own behalf.

As a result of this shifting of arrangements it is expected that three days will be consumed in the defence.

That the lawyers for the defence had not expected the change of plans being indicated when their witnesses were called to the stand without the formality of an opening statement.

Closing Arguments To Be Long.

It was explained that long statements would be made by lawyers representing each of the defendants at the close of the taking of testimony, to offset the failure to make opening arguments to the jury.

Judge Hunt, in addition to his ruling that "the cases of all defendants must go to the jury, refused to strike out the government's testimony concerning the Metropolitan Steamship Company transactions, which, according to the defendants' lawyers, involved only Edward D. Robbins, former counsel for the road.

It was agreed that William Rockefeller should be called to the witness stand as a witness after his physician had testified that he was subject to serious throat attacks, and that any excitement, or even a cold, might bring on an attack to which he had been subject since an operation four years ago.

The first witness for the defence was E. Dana Malone, Attorney General of Massachusetts at the time of the Boston & Maine Railroad acquisition. Mr. Malone, author of the measure that legalized the purchase of the Boston & Maine by the New Haven road, admitted that he had talked to Timothy F. Byrnes, vice-president and legislative agent for the New Haven, concerning the measure while it was in the process of construction.

Didn't Remember Changes.

Mr. Malone said Attorney Byrnes called at his office and made certain suggestions concerning the document. The suggestions, he said, had resulted in only slight changes in the phraseology of the bill. When questioned he said he could not recall just what these changes were. He was certain he had

# PLAYS AND PLAYERS of the Film World

Guy Standing, son of Herbert, and brother of Jack Standing, has been seriously wounded in the fighting near Gallipoli, and is on his way to England on board a hospital ship. The Silver King, partly finished by the Famous Players, awaits his recovery.

Richard Le Gallienne's "The Choir Invisible" is being filmed in the Bahamas with Emmet Corrigan in one of the principal roles.

Anna Pawlowa, the Russian dancer, will be filmed in a Japanese photoplay under the auspices of the Universal. She will probably portray a geisha girl. Lois Weber will direct the production.

Rupert Hughes' "Excuse Me," in film version, is ready for the public, with George F. Marion and Vivian Blackburn in the leads.
